

Another Innovative Cooling Product from Schaefer Ventilation Equipment

The VersaFog® is our most powerful cooling fan. It features a high-pressure cooling fog and an industrial-quality 36" oscillating fan that distributes cool air up to 65'.

Reduces air temp. up to 35°F

Features:

- Patented design provides more powerful air flow.
- Fan oscillates at 90 degree arc and tilts up and down.
- Maintenance free - No belts or pulleys to adjust.
- Uses any garden hose water source.
- Auto drain valve reduces nozzle clogging.
- 12 nozzle ring with brass & stainless steel nozzles and fixtures.
- High quality pump with low pressure shut-off protection.
- Heavy-duty oscillator motor (115 volt).

Ideal for:

- Warehouses • Spectator Areas
- Amusement Parks • Sporting Events • Zoos
- Festivals/Fair Grounds • Rental • Outdoor Retail
- Greenhouse/Nursery • Fire Departments
- Race Tracks • Job Sites • Industry
- Motion Picture • Hotels/Resorts
